WWW.NELSONREDANGUS.COM

Cattlemen,

Welcome

As The U.S cow herd continues to move along at reduced cattle inventories with strong consumer beef demand, it looks as though cattle prices will remain strong. While this is good news for cattle producers, it also increases the importance of every calf that hits the ground.

Producers need bulls that will produce calves to fill replacement needs and do well in the feedyard. Nelson Red Angus raises bulls with both these needs in mind. These bulls were bred for longevity, to be structurally correct and to efficiently add pounds to those final weights. We ordered the lots by sire group, so if there is a certain bull you are interested in, you can review any siblings he may have on the sale.

If you have questions, do not hesitate to contact us via phone, text, email, or visit our website. We hope to see you in Philip, but if you cannot join us in person, feel free to participate in the sale live on Cattle USA.

The Nelsons

*The redder
the better!*
